

	<b>S</b> pecific	<b>M</b> easurable	<b>A</b> chievable	<b>R</b> elevant	<b>T</b> ime-limited
<p>Definition ↙ ↘</p> <p>General Project Aim</p>	It says exactly what you are going to do, it's not too broad	There is a way of counting the outcome	You can actually do it	It helps you achieve the overall aims of the project and suits the people it is aimed at	You have a date when it will end
Making lunch	We will make a green leaf salad, and several types of sandwiches and drinks. We will make a cake for dessert.	We will make 1 bowl of salad per 8 people and 3 sandwiches, 2 drinks and 1 slice of cake per person.	We have checked that there are facilities to do this, and that we can buy all the ingredients for the money we have.	We've checked and as long as we have enough variety of sandwiches everyone will have something to eat.	We need to get this done by 12.00 today.
